

Mon 6/22/2020

We are very pleased to announce that DD & S Express, Inc., out of Annapolis, MD, has joined TMHA as a new Motor Carrier Member. Below, is a brief statement from DD & S providing some interesting, key information about TMHA's newest member.

"DD & S Express specializes in the hauling of over-dimensional commodities and super loads with years of experience providing these services in the United States, Canada and Mexico. Our network includes 60 terminals working together with over 200 owner-operators. We have more than 350 pieces of trailing equipment, including standard flats and steps, dollies, RGN's and RGN extendables, and multi-axle configurations (up to 20 axles) to move freight safely and on time. We are reliable, fair, and focused on providing opportunities to our drivers and customers. Our drivers are experienced in hauling a full range of over-dimensional commodities, including machinery, enclosures, vessels, turbines, transformers, and more."

Long-time friend of TMHA, Dan Doran, will be DD & S's representative to TMHA. Please join us in welcoming DD & S Express to the TMHA family. We look forward to their participation in our organization.

DD&S EXPRESS INC.
